WEDNESDAY JUNE 2.
A NATIONAL MONOPOLY
OF THE BUSINESS OF MONEY LEND-
ING PROPOSED.

The Scheme Endorsed by the Knights of Labor.—A Loan Office for Every County, and Money at 3 Per Cent.—Heavy Penalties for Law-Breakers—Control of Boycotts and Strikes.

CLEVELAND, June 2.—When the Knights of Labor convention opened Tuesday morning the report of the committee on strikes and boycotts, recommending that full jurisdiction relating to those matters be vested in the executive board, was again taken up, and after considerable debate the vote of the convention, adopted with slight amendments. The committee appointed to prepare an answer to the address of the Women's Christian Temperance Union reported a letter extending fraternal greetings to the society, and proposed that further action be taken at the meeting of the general assembly at Richmond next fall. The report was adopted.

The committee on laws made a final report, embodying a number of points in addition to those already adopted, which the order wished to have presented to congress.

Among these was an act presented by Delegate Low, of Pennsylvania, with the recommendation of the committee. The convention ratified the act and it will be presented to congress for passage. It is entitled "An act fixing the measure of value and further regulating the value of money." The bill comes in two parts; one part of sections and another part of sections, and after the first part, January 1st, after the passage of this act, the rate of interest for money loaned shall be 3 per cent. per annum. Discount shall be included in the meaning of the word "interest" as used in this act. Any person who shall lend money at any other rate shall forfeit to the borrower both the principal and interest, and no action shall be taken for the recovery of the sum.

Section 2 provides that "the secretary of the treasury shall establish loan offices as he may deem expedient, not less than one in each county or parish in the United States, and the territories having a population of 3,000 or more, as shown by the latest census, said offices shall be used for issuing, lending and depositing money as bonds of issue and deposit are now used. Whenever, in the opinion of the secretary of the treasury, and the postmaster general, it shall be expedient, the postoffice and loan office."

Section 3 says "the business of the loan office shall be performed by a cashier and such tellers, as the business may require. Cashiers and tellers shall be appointed by the secretary of the treasury, for the term of four years, unless sooner removed or suspended according to law, and small revenue and compensation as the amount of the transaction shall demand, but not to exceed \$4,000 a year. Cashiers shall receive as a part of their compensation 2 per cent. of the interest collected by them respectively."

Sections 4 and requirements and tellers to give bond and make themselves responsible for all debts.

In section 5 it is provided that "cashiers are authorized to accept deposits of the United States in denominations of \$1, \$3, \$5, \$10, \$20, \$50, \$100, \$500, \$1,000 according to the demands of commerce." The said notes shall be printed and furnished by the controller of the currency from time to time as a part of their compensation 2 per cent. of the interest collected by them respectively."

Section 6 provides that "those notes shall be paid on their face that the United States of America shall pay to bearer in gold coin or its equivalent, or in specie, or in any of the United States on demand," and says that the notes provided for by this act are hereby declared money and shall be issued and circulated as such and shall be legal tender in payment of all debts and dues."

Section 7 provides that "the purpose of this act is to provide for the payment of such sufficient security for the amount of money for which the loan is asked, lead money for not to exceed one year without renewals or advances, and to furnish a safe and secure place for saving money for one year or less." The cashier shall be guilty of felony and shall pay a fine of double the amount so fraudulently obtained and be imprisoned not less than twenty years, and shall also be disfranchised. Any person officially connected with a loan office who embezzles shall be subject to the same penalties, except in case of loss of citizenship. The secretary of the treasury may designate any loan office of a depositary of public money. The cashier of such office shall thereupon furnish additional security." Money deposited may be loaned by the cashier as other money in his control, or held as revenue for the redemption of United States notes. Accumulating gold and silver coin of the United States with intent to sell the same for any other currency authorized by the laws of the United States is prohibited. The offering for sale or usance to prima facie evidence of such accumulation. This shall be felony and any person convicted thereof shall forfeit as a fine his entire estate, goods, money and property, or may be imprisoned at hard labor for life years, or suffer both fine and imprisonment, and in addition forever forfeit the right of citizen ship in the United States."

Section 8 provides "for the purpose of carrying this act into effect. The sum of \$50,000,000, to be appropriated out of any money in the treasury not otherwise appropriated." Section 9—"All laws authorizing any person, persons or corporation to issue their notes to be used as money, and all acts or parts of acts in conflict with the provisions of this act are hereby repealed."

The afternoon proceedings of the convention were silent, save nothing was given out to the press. There was a great deal of talk about a conspiracy of the New York faction to oust Mr. Powderly, but nothing definite has developed about it.

Ditched by a Gondola-Car.

RICHMOND, Ind., June 2.—Early Tuesday morning the north-bound Panhandle express struck a gondola-car which it supposed some boys had run out on the track at Windfall, Ind., ditching the engine and the engine and baggage and smoking-car, which was badly scalded and his hand mangled. Burke, fireman, is so severely scalded and injured that he may be permanently crippled if he lives. All the rest of the train crew were more or less injured.

A PLEDGE FOR THE FUTURE
Asked of Miss Folsom by a Cleveland Laboring Man.

New York, June 2.—The apartments of the Folsom family have been vigilantly guarded by the tilsey house employees to prevent them from being invaded by the numerous men and women who seek on all sorts of pretenses to gain access thereto. The ladies breakfasted in private Tuesday morning, received a few calls from intimate friends, and at 11 o'clock Mrs. Folsom, however, remained indoors. The bridegroom constantly receives flowers, and missives of various kinds, some of them full of odd requests and advice. Perhaps the most remarkable of the communications received Tuesday was from a laboring man in Cleveland, Ohio, signing himself J. J. Martin, who has the students with him to teach him the study of the rights of laboring people. The writer thus inquires: "Will you, when you are a mother, teach your offspring to have the interests of the laboring classes at heart?"

Miss Folsom, accompanied by her uncle and mother left for Washington Tuesday night at 12 o'clock in a special car.

Last Time as a Bachelor.

WASHINGTON CITY, June 2.—The president sat at the head of the cabinet meeting Tuesday morning, and sat for the last time as a bachelor among those experienced bachelors. He had had a long conference with Col. Lamont while he breakfasted, and had listened to all Miss Cleveland's plans and suggestions. Secretaries Whitney and Eliot and Postmaster General Vilas were absent, as all three of them remained over at New York to rest from the fatigues of the campaign. The wedding cake has been ordered at New York and will be cut up and 150 pieces of it put in beautiful little boxes which are said to have cost \$1,500, and distributed to the friends of the high contracting parties. Preparations for the event are completed and rumors of what the presents will be are as thick as leaves in autumn. But factoring in the number of the guests it is very large. Of course the subject is the "talk of the town" and expectation is at its height for the hour of the ceremony.

Giving Them Another Chance.

WASHINGTON CITY, June 2.—The house committee on public lands has directed a favorable report to the bill to amend the Homestead Act of 1862, authorizing the president to sell unappropriated lands of the United States who have heretofore filed application for land under the homestead laws and for any cause have surrendered, lost or relinquished their right to the land applied for prior to the consummation of their entries, upon the payment of the prescribed fees and commissions, be permitted to make new entries under existing homestead laws, the same as though the previous filing had not been made, provided, that the person who, at the date hereof, is the owner of 160 acres of land, and that no title shall be acquired by any tract of land until after the applicant shall have actually resided upon and cultivated the land so entered for five years from the date of entry.

Mr. Senator Ferry at Home.

DENVER, Colo., June 2.—Ex-Senator Thomas W. Ferry arrived here Sunday after a three weeks' sojourn in Europe. His health seems to have greatly improved, and the financial fortunes of the family are said to have been restored under his brother's management of affairs in his absence. He says he is out of politics permanently, and will settle down at his home at Grand Haven and devote his time to his business interests.

Lead Up into Temptation.

WASHINGTON CITY, June 2.—In introducing into the Senate Tuesday a bill prohibiting members of congress from serving railway companies, about which congress may have to legislate, Beck said "there has been much crimination and recrimination between the members of congress and the railroads, and the railroads have been blamed for the misdeeds of the railroads."

—Mr. and Mrs. Black, of Lake Mills, have been guests in the family of Cyrus T. Frink for several days past.

—We are glad to learn that Mr. Thos. Cottrell is recovering from the shock of the disappearance of his family wife, the alias of Mrs. Parmenter, wife of this bachelors accompanied Mr. Parmenter to church and while there laid an egg, and then created as much disturbance with his chick which the sexton had to quiet her. This egg was given to the sexton.

—A. L. Fisher's highly bred trotting mare, Maid Martin, is convalescent after a severe attack of horse colic. Mr. Fisher has lost a very valuable horse with this disease.

Milton Junction.

—Our school closed last Thursday. The work in them for the past year has been quite successful, although at times it has been hindered by sickness among the scholars. Mr. Dickinson has proved himself a very good teacher.

—Miss Fannie Jackson has won the love of those in the primary department, and given her pupils a start in the right direction. We think it is the general wish that our school board would secure the services of the same teachers for another year.

—Mr. and Mrs. Black, of Lake Mills, have been guests in the family of Cyrus T. Frink for several days past.

—We are glad to learn that Mr. Thos. Cottrell is recovering from the shock of the disappearance of his family wife, the alias of Mrs. Parmenter, wife of this bachelors accompanied Mr. Parmenter to church and while there laid an egg, and then created as much disturbance with his chick which the sexton had to quiet her. This egg was given to the sexton.

—Mr. and Mrs. W. T. Morgan are enjoying a visit from their niece, Mrs. Carrie, wife of Mr. McKinley.

—T. D. Earle has handled about a thousand cases of tobacco at the St. Paul warehouse this spring.

—Rev. D. L. Barrow preached a moral sermon at the M. E. church on Sunday afternoon to quite a fair audience.

—From the world of fishing parties that have passed this place for a few days out their way to Lake Koshkonong, we judge that the supply is very large, or the average number for each fisherman must be small.

—Miss Gertrude Hogg, of Watertown, has been spending several days with her uncle and aunt, Mr. and Mrs. J. M. Clarke.

—O. Clarke has been on a business trip to Omaha.

—Decoration Day was very generally observed by this vicinity.

At one o'clock quite a long procession of carriages was formed by Dr. J. E. Conley, as marshal, and headed by Milton Corlett band, which proceeded to the public park, at Milton, where appropriate exercises were held. After decorating the graves in the Milton cemetery, they reorganized and came to the junction, where the same rites were performed. May the memory of our brave soldiers long be preserved by these visible tokens.

—J. P. Bullis has sold his place where he had commenced building, near Morris Pratt's, to the Hon. Burdick, of Albany, N.Y., and is about to keep what remains of it, as well as a foot of land to sell, but at the same time does not intend to lose anything by his transaction.

—Perkins, however, the last sale was based on account of a little incident that occurred just before it was affected.

—We are sorry to record the death of Fred Guerin, the young man who brought diphtheria to the family of W. A. Paul. He died on Monday afternoon of blood poison, caused by his disease. He was a sad case, resulting not only in his own death, but in bringing sickness and death to Mr. Paul's family.

—A little incident occurred on Decoration Day which shows the loyalty of some of our citizens. A man who had recently come to the country, with hands full of patriotism, they spied a red flag bosomed on a wood pile in a neighboring yard. Taking it as an emblem of socialism, they made a charge, fired a few guns, and captured the disloyal ensign, and raised the stars and stripes in triumph in its place.

—Miss Eliza Neff, has been off duty the past week, on account of sickness, but will soon be at her post again.

—F. S. Winslow, the ex-C. O. D. man, was in town on Tuesday.

—Mrs. J. Calison, of Whitewater, is visiting at Mr. Hassenger's.

Costly Fire in an Illinois Town.

PRAIRIE, Ill., June 2.—A fire broke out in the village of Brimfield, on Tuesday morning and destroyed a hardware store, a grocery store, a bank, a church and the postoffice. The losses are estimated at \$50,000. The fire is supposed to be the work of an incendiary.

REGRET.

I do not mourn, sweet wife of mine
Because those ruby lips of thine.
That marble brow

Some score of times round your waist.
So sweet and slim,
Oh, no, my love, the two you see
Is mine because you wedded me
Instead of him.

—The funeral of Miss Anna Slosson was held this afternoon at the home of the family. The services, which were very impressive, were conducted by the Rev. C. B. Wilcox, of Oshkosh. His remarks were very appropriate and tender tributes were paid to the memory of the one who had been freed from life's troubles and had passed to the other world. The song service was rendered by a quartet consisting of Mrs. A. O. Wilson, Miss Jennie Tilton, and Messrs. Bouett and Ray.

—The State Medical Society is now in annual session in the senate chamber at Madison. Among the papers to be presented we note by Surgeon-General Henry Palmer, of this city, entitled "A general report on progress in surgery, with particular discussion of the surgery of the cranium." Buckmaster and Wiggin, of the Insane hospitals, will present papers on "Immigration of the defective classes."

—The June Pansy is as bright as its namesake. The stories, poems and flower chorus are unusually attractive because of their timely import and seasonable nature. The sketches, both historical and biographical, are particularly notable, and the installments of an exceptionally strong character. Round the family lamp, (Margaret Sidney) is deserving of especial mention. Appropriate to the month, it furnishes the Rose game, a delightful out-door entertainment, and one that will be entered into with zest by the entire household. Illustrated, \$1 a year. D. Lothrop & Co., publishers, Boston, Specimen free.

—The proposed new bridge above the dam will be of the following dimensions: It will be four piles to the tier, the piling being one foot above the high water mark of 1881; the floor will be crowning in the center, making it high and dry, and out of the way of high water; the wagon road will be eighteen feet wide and a six-foot walk on one side only. The bridge will be provided with a good railing on both sides. While a number of our enterprising citizens have already subscribed liberal sums for the construction of this bridge, the committee hope to meet with encouragement from all the people, and they assure them that the bridge will be no toy, but a good substantial structure, and no material will be used but of the best quality.

—About two weeks ago it will be remembered, an alternative will of man-dan was granted by Judge Bennett, requiring the school board of Edgerton to discontinue the devotional services in the public schools or show cause why they should not do so. The writ was issued on the application of a number of

the Catholics of that city, their complaint being that the services were conducted according to Protestant tenets, and were therefore illegal under the revised statutes of Wisconsin. The board is now preparing an answer, in which it is claimed that no pupil is compelled to take part or listen to such devotional and religious exercises, and the same form no part of the teachings of the school.

—Mrs. A. M. Merrill, of Chicago, will spend two weeks in giving lessons in the new style of artistic painting on plushes, velvets and satin. The art is known as oriental lustre, and the combination of colors is simply elegant. The fine brocades are used and the work is not only handsome but durable. Mrs. Merrill proposes to organize a class for instruction and guarantee, in four lessons at most, to teach the art thoroughly. She has spent the past three months in Rockford, and as a result many of the best residences of the Forest City are ornamented with specimens of her handy work as well as that of her many pupils. Mrs. Merrill was in the city about three weeks ago and organized a class. She may be seen at Mrs. C. T. Wright's, on Jackson street. Ladies will be especially interested in the exhibition of samples and will appreciate an opportunity to acquire the art of ornamenting their homes at a very moderate expense.

CIRCUIT COURT.

—The Case of Tailman Against the C. M. & St. P. Railway Decided.—The Jury Discharged.

The case of E. D. Tailman against the Chicago, Milwaukee & St. Paul railway was given to the jury yesterday afternoon and after considerable deliberation a verdict was returned for the defendant.

In this case the suit was brought to recover damages for the burning of three cases of cigars in the fire at the C. M. & St. P. freight depot. The cigars were part of a shipment of fifteen cases that had been sent from Chicago to Mr. Tailman. Twelve of the cases were delivered but three were held until some agreement should be made as to the charges. The plaintiff claimed that he had an agreement with the officers of the road, by which the cigars were to come at first class rates, whereas the regular charge for such freight is double first class.

At the meeting of the Janesville fire police last evening Edward B. McKee resigned his membership in the organization. He was elected honorary member, and O. W. Ray was elected to fill the vacancy left in the company by Mr. McKee's retirement.

The club will sing at Court Street church next Friday evening. Reserved seats tickets at Prentiss & Evanson's.
